FOR WOOD & GLASS

STAIN FOR WOOD COATING

Stain for Wood Coating is a premium finish designed to enhance the natural beauty and grain of wood while providing lasting protection. It penetrates deep into the surface, adding rich color and depth, and helps guard against moisture, UV rays, and everyday wear. Suitable for both interior and exterior applications, it delivers a smooth, even finish that brings out the best in furniture, doors, flooring, and wooden décor.

WATER BASED STAINS

Water-Based Wood Stains are eco-friendly, low-odor, and quick-drying coatings that enhance wood's natural beauty while allowing easy cleanup with water. They offer excellent colour retention, are ideal for indoor use, and provide a smooth, even finish without strong fumes.

BASIC CONCENTRATED STAIN

Product	Code	Product	Code
Yellow	Wp701	Wengue	Wp706
Blue	WP702	Walnut	WP707
Violet	WP703	Teak	WP708
Red	WP704	Oak	WP709
Black	WP705	Smoke Oak	WP710

FREQUENTLY USED STAINS

Product	Code	Product	Code
Honey	WP711	Mahogany	WP712
Cherry	WP713	Rosewood	WP714

SOLVENT BASED STAINS

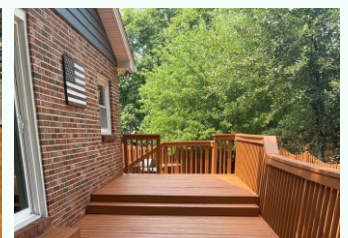

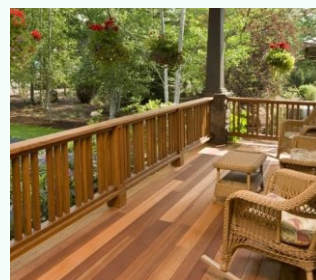

Solvent-Based Wood Stains penetrate deeper into the wood, delivering rich, long-lasting colour and superior resistance to moisture and wear. They are more durable for outdoor applications and perform well under harsh weather conditions, though they require proper ventilation during application.

BASIC CONCENTRATED STAIN

Product	Code	Product	Code
White	WP715	Wengue	WP721
Yellow	WP716	Walnut	WP722
Blue	WP717	Teak	WP723
Red Bordeaux	WP718	Oak	WP724
Red	WP719	Smoke Oak	WP725
Black	WP720	Honey	WP726

Rosewood	WP729		

ALKYD POLYURETHANE WOOD COATING

Alkyd Polyurethane Wood Coating is a durable, high-performance finish. It combines polyurethane's toughness with alkyd resin's smooth appearance. This coating resists scratches, moisture, and UV damage, making it suitable for indoor and outdoor wooden surfaces. It enhances the wood's natural grain, providing a glossy finish and long-lasting protection for furniture, doors, flooring, and other wood elements.

ALKYD POLYURETHANE CLEAR COATINGS INTERIOR APPLICATIONS

SEALER

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.SANDING SEALER	WP801	H101	Excellent Transparency High Solids, And High Viscosity, Excellent Flow And Levelling, Easy Sanding Rapid Drying, Medium Viscosity, Good Sanding, Cost Effective

ALKYD POLYURETHANE CLEAR COATINGS MATT

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G15	WP802	H102	Smooth Silky Finish, Outstanding Levelling And Scratch Resistance, Excellent Fast-drying, Very Good Through Hardening, Good Chemical Resistance, Mar Resistance, Good Light Fastness.
2K P.U.MATT LACQUER G30	WP803	H103	
2K P.U.MATT LACQUER G60	WP804	H104	

ALKYD POLYURETHANE GLOSSY CLEAR COATINGS

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G90 HI SOLIDE	WP805	H105	Very High Gloss, High Solids, Slow Drying

Alkyd Polyurethane coatings are a versatile and cost-effective choice for most interior surfaces. They provide excellent coverage and a wide range of applications, though they are not suitable for areas where yellowing is a concern. The coatings deliver a smooth, durable finish that protects against everyday wear and tear, making them a popular choice for furniture and trim.

ALKYD POLYURETHANE PIGMENTED SYSTEM (INTERIORS)

PRIMERS

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.WHITE PRIMER	WP806	H106	High Solids, And High Viscosity, Excellent Flow And Leveling, Easy Sanding Rapid Drying, Medium Viscosity, Good Sanding, Cost Effective
2K P.U.BLACK PRIMER			
2K P.U.BROWNE PRIMER			

ALKYD POLYURETHANE PIGMENTED MATT SYSTEM

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G15	WP807	H107	Outstanding Levelling And High Covering, Excellent Scratch And Mark Resistance, Excellent Hiding, High Scratch Resistance & Smooth Finish.
2K P.U.MATT LACQUER G30	WP808	H108	
2K P.U.MATT LACQUER G60	WP809	H109	

ALKYD POLYURETHANE PIGMENTED GLOSSY SYSTEM

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G90 HI SOLIDE	WP801	H110	Very High Gloss, High Solids, Slow Drying

Similar to its Alkyd Clear coating families, Alkyd Polyurethane pigmented systems are highly versatile coatings suitable for almost all types of interior colour applications. They offer excellent covering and finish along with high scratch resistance and favourable cost dynamics. Thanks to anti-yellowing hardeners of Wingspan coatings, these products offer very good anti-yellowing properties.

ACRYLIC POLYURETHANE WOOD COATING

Acrylic Polyurethane Wood Coating Paints are advanced finishes that blend the flexibility of acrylics with the durability of polyurethane. They create a tough, scratch- and stain-resistant surface with excellent colour retention and UV protection. Ideal for both indoor and outdoor use, these coatings enhance wood's natural beauty with a smooth, quick-drying finish, perfect for furniture, doors, and windows.

ACRYLIC POLYURETHANE CLEAR COATINGS (HIGH CLARITY/ EXTERIOR APPLICATIONS)

SEALER

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.SANDING SEALER	WP811	H111	Excellent Transparency High Solids, And High Viscosity, Excellent Flow And Levelling, Easy Sanding Rapid Drying, Medium Viscosity, Good Sanding, Cost Effective

ACRYLIC POLYURETHANE CLEAR COATINGS MATT

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G15	WP812	H112	Smooth Silky Finish, Outstanding Levelling And Scratch Resistance, Excellent Fast-drying, Very Good Through Hardening, Good Chemical Resistance, Mar Resistance, Good Light Fastness.
2K P.U.MATT LACQUER G30	WP813	H113	
2K P.U.MATT LACQUER G60	WP814	H114	

ACRYLIC POLYURETHANE GLOSSY CLEAR COATINGS

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G90 HI SOLIDE	WP815	H115	Very High Gloss, High Solids, Slow Drying, Mar Resistance, Good Light Fastness

Acrylic Polyurethane clear coatings offer a high-clarity, non-yellowing finish ideal for exterior applications. They combine the toughness and durability of polyurethane with the superior UV resistance of acrylic resins. This results in a clear topcoat that provides excellent gloss retention, flexibility, and resistance to scratches, chemicals, and weathering, making it perfect for protecting surfaces like wood and metal exposed to the elements.

ACRYLIC POLYURETHANE PIGMENTED SYSTEMS (EXTERIOR, ANTI-YELLOWING)

PRIMERS

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.WHITE PRIMER	WP816	H116	High Solids, And High Viscosity, Excellent Flow And Leveling, Easy Sanding Rapid Drying, Medium Viscosity, Good Sanding, Cost Effective
2K P.U.BLACK PRIMER			
2K P.U.BROWNE PRIMER			

ALKYD POLYURETHANE PIGMENTED MATT SYSTEM

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G15	WP817	H117	Outstanding Levelling And High Covering, Excellent Scratch And Mark Resistance, Excellent Hiding, High Scratch Resistance & Smooth Finish.
2K P.U.MATT LACQUER G30	WP818	H118	
2K P.U.MATT LACQUER G60	WP819	H119	

ALKYD POLYURETHANE PIGMENTED GLOSSY SYSTEM

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G90 HI SOLIDE	WP820	H120	Very High Gloss, High Solids, Slow Drying

Acrylic Polyurethane pigmented systems are durable, coloured coatings for exterior use. They combine the toughness of polyurethane with the UV resistance and anti-yellowing properties of acrylic resins. These coatings are highly resistant to weathering, abrasion, and chemicals, making them ideal for protecting steel structures, machinery, and vehicles in outdoor environments.

POLYESTERS POLYURETHANE CLEAR COATINGS

SEALER

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.SANDING SEALER	WP821	H121	High Solids, Excellent Flow And Levelling, Easy Sanding Rapid Drying, Good Sanding,

POLYESTERS POLYURETHANE CLEAR COATINGS MATT

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G15	WP822	H122	Smooth Silky Finish, Outstanding Levelling And Scratch Resistance Durability And Abrasion Resistance In Coatings.
2K P.U.MATT LACQUER G30	WP823	H123	
2K P.U.MATT LACQUER G60	WP824	H124	

POLYESTERS POLYURETHANE GLOSSY CLEAR COATINGS

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G90 HI SOLIDE	WP825	H125	High Chemical Resistance ,very High Gloss, High Solids, Slow Drying

Polyester Polyurethane clear coatings combine the hardness of polyester with the flexibility and durability of polyurethane. This blend creates a tough, high-gloss finish resistant to scratches, chemicals, and UV damage. Ideal for floors, furniture, and boats, these coatings provide a tile-like finish with excellent colour and gloss retention, suitable for both indoor and outdoor use.

POLYESTERS POLYURETHANE PIGMENTED SYSTEM

PRIMERS

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.WHITE PRIMER	WP826	H126	High Solids, And High Viscosity, Excellent Flow And Leveling, Easy Sanding Rapid Drying, Medium Viscosity, Good Sanding, Cost Effective
2K P.U.BLACK PRIMER			
2K P.U.BROWNE PRIMER			

POLYESTERS POLYURETHANE PIGMENTED MATT SYSTEM

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G15	WP827	H127	For Colourfast And Chemically Resistant Coatings, Good Flexible, High Yellowing Resistance, Low Application Viscosity
2K P.U.MATT LACQUER G30	WP828	H128	
2K P.U.MATT LACQUER G60	WP829	H129	

POLYESTERS POLYURETHANE PIGMENTED GLOSSY SYSTEM

PRODUCT	CODE	HARDENER	PROPERTIES AND APPLICATION
2K P.U.MATT LACQUER G90 HI SOLIDE	WP830	H130	High Chemical Resistance, Impact Resistance, Toughness And Abrasion Resist

Polyester Polyurethane pigmented systems are durable, coloured coatings that combine polyester resins with polyurethane. They offer excellent resistance to abrasion, chemicals, and UV damage, making them suitable for applications requiring both aesthetic appeal and protection. These coatings are commonly used in industrial and automotive settings for floors, machinery, and vehicles.

SPECIAL EFFECTS

PRODUCT	CODE	CONSIDERATIONS
Black Texture	WPE301	Medium Texture Matt
White Texture	WPE302	Medium Texture Matt
Ice Effect	WPE303	Water Based Icy Effect
Multi Effect	WPE304	Dual Tone Color
